

KOOL SEAL
ROOF RESTORATION COATINGS

ROOF PAINT

BEAUTIFIES & PROTECTS

Kool Seal® offers a premium formula roof paint to complement our line of elastomeric roof coatings. Once cured, this tough, durable coating resists mold and mildew and has excellent adhesion.

This formulation is UV resistant and won't chalk, crack or peel from a properly prepared surface. Great for tile and metal roofs.

Available to tint in a wide range of colors!

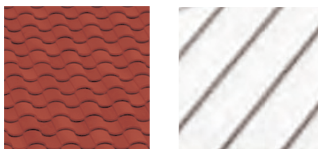

FEATURES AND BENEFITS

Available to tint in a wide range of colors!

- Easy to apply. Perfect for DIYers and contractors.
- Resists fading
- The cured surface is mildew resistant
- Durable finish
- Soap-and-water cleanup — while wet

For use on cement tile roofs and metal roofs.

Application rate for each coat:

Flat Cement Tile	200 sq. ft./gal.
------------------	------------------

Barrel Cement Tile	150 sq. ft./gal.
--------------------	------------------

Metal	200 sq. ft./gal.
-------	------------------

Note: Actual coverage will vary depending on porosity of surface. Apply two coats to all surfaces at the above rates.
